

## ROLL-A-RAMP®

*Portable Ramp System*

### Why Roll-A-Ramp?

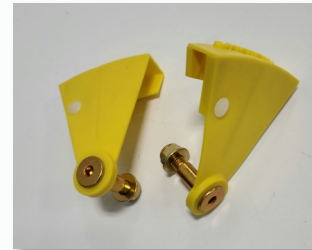

- It is extremely strong yet light-weight
- Rolls up and is portable enough to take anywhere
- Quickly add links to lengthen or remove links to shorten
- Can easily be divided into smaller, more portable sections

Built in links, any length is possible!

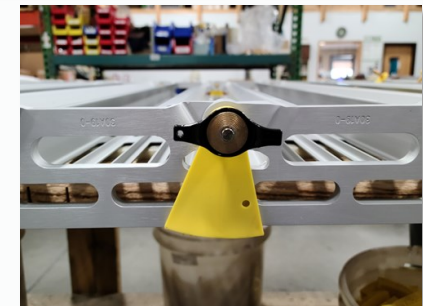

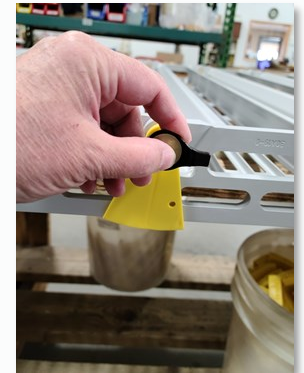

Divide using included bolts (tools included)

- Remove lower end plate
- Add section with included bolts or Quick Connect Pins
- Reattach end plate

Divide using Quick Connect
